MANAGEMENT DISCUSSION AND ANALYSIS

The Group is a leading out-of-home (“OOH”) advertising space and service provider in Hong Kong. During the nine months period ended 31 December 2018, the Group continued to engage in the operation of advertising business on transportation and outdoor sector.

Business Review

The Group continued its principal business in the provision of OOH advertising spaces and services to its customers, which comprise end users aiming to promote their brands, products or services, and advertising agents acting for such advertisers. We also offer our customers design and production, advertisement logistics, installation and dismantling services on the different advertising platforms.

During the period under review, the Group has further developed Transportation Business by acquiring printing machines for the production of advertising stickers for the minibus and taxi advertising spaces. When those printing machines reach its full operation capacity, the Group will have full and flexible control on the delivery time of the production of advertising stickers which gains efficiencies and varieties on the Group’s services. Our first in-house printing machines for printing advertising stickers were installed in October 2018 and the Group is eager to expand the productivity by recruiting two shifts of employees in order to operate the printing machines 24 hours per day and to reduce the Group’s reliance on outsourced printers.

The three new advertising regimes, (i) provision of advertising display services over the self-pickup lockers platforms (“**Logistic Advertising Business**”); (ii) provision of advertising display services over the digital and online media platforms (“**Digital Media Business**”); and (iii) provision of esports event management services (“**Digital Event Management Business**”) have gradually replaced the hospital media and health and beauty retail stores platforms which our contracts with the respective parties were ended on 30 April 2018 and 30 June 2018 respectively.

Our new advertising platform for Logistic Advertising Business maintained a respectable margin of 35.3%. Digital Media Business maintained a reasonable margin at 26.5%. The Group will continue to expand Logistic Advertising Business and Digital Media Business by adopting a more dynamic and flexible sales strategies and packages tailor-made for our advertising agency clients to leverage our client base in Transportation Business.

During the period under review, the Group has teamed up with a Hong Kong based company specializes in esports event management services to support the production of esports broadcasts and live events at the stadium located in Taiwan, which is invested by an American video game developer, and other related services in connection with the daily operation of the stadium. Digital Event Management Business maintained a reasonable margin at 17.5%.

Financial Review

Revenue

Total revenue of the Group increased by 10.7% from approximately HK\$41.9 million for the nine months period ended 31 December 2017 to approximately HK\$46.4 million for that of 2018. Such increase of revenue was mainly contributed by (i) the increase of revenue generated from minibus advertising from approximately HK\$29.4 million for the nine months period ended 31 December 2017 to approximately HK\$34.8 million for the nine months period ended 31 December 2018; and (ii) the realization of the new business development into the three advertising regimes, namely Logistic Advertising Business, Digital Media Business and Digital Event Management Business, revenue generated from these regimes were approximately HK\$0.3 million, approximately HK\$4.1 million and approximately HK\$3.7 million respectively.

Revenue generated from minibus advertising increased by 18.4% from approximately HK\$29.4 million for the nine months period ended 31 December 2017 to approximately HK\$34.8 million for that of 2018. Such increase was mainly due to the fact that the Group has expanded the coverage of exclusive advertising spaces from 1,103 minibuses as at 31 December 2017 to 1,347 minibuses as at 31 December 2018 in accordance with the expansion plan and the use of net proceeds stated in the prospectus of the Company dated 23 December 2016 (the “**Prospectus**”). Revenue generated from taxi advertising increased by approximately HK\$0.1 million for the nine months period ended 31 December 2018 as compared to that of 2017. Such increase was attributed by the Group’s sales strategy to promote our exclusive advertising spaces on taxis. Revenue generated from the provision of other types of advertising services (for example advertising spaces in other OOH media formats) increased by approximately HK\$0.3 million for the nine months period ended 31 December 2018 as compared to that of 2017.

Revenue generated from hospital advertising decreased from approximately HK\$8.3 million for the nine months period ended 31 December 2017 to approximately HK\$0.7 million for that of 2018. Revenue generated from the health and beauty retail stores advertising decreased from approximately HK\$2.3 million for the nine months period ended 31 December 2017 to approximately HK\$0.7 million for that of 2018. Such decrease was due to the completion of the agreements for the use of advertising spaces at the public hospitals and the health and beauty retail stores on 30 April 2018 and 30 June 2018 respectively.

Revenue generated from (i) Digital Media Business; (ii) Digital Event Management Business; and (iii) Logistic Advertising Business were approximately HK\$4.1 million, approximately HK\$3.7 million and approximately HK\$0.3 million respectively.

Cost of Sales and Gross Profit Margin

In general, cost of sales increased by 22.1% from approximately HK\$25.8 million for the nine months period ended 31 December 2017 to approximately HK\$31.5 million for that of 2018. The increase was mainly due to (i) the increase of license fees paid for the exclusive minibus advertising spaces; (ii) the new license fees paid for the advertising spaces of the self-pickup lockers advertising and digital media advertising; and (iii) the operational expenses of the new Digital Event Management Business.

The gross profit margin decreased by 6.3 percentage points from approximately 38.4% for the nine months period ended 31 December 2017 to approximately 32.1% for that of 2018.

In the minibus sub-segment, the Group has recorded the increase of gross profit margin from approximately 34.1% for the nine months period ended 31 December 2017 to approximately 36.7% for that of 2018. Such increase was mainly due to the maturity of the sales cycle in the newly acquired exclusive advertising spaces. Our total number of exclusive advertising spaces in minibus network increased significantly from 1,103 as at 31 December 2017 to 1,347 as at 31 December 2018 with reference to the Group's expansion plan stated in the Prospectus. The Group has introduced an in-house advertising material printing facilities and also managed to control the production cost despite the increase in revenue of the minibus sub-segment of approximately 18.4% from approximately HK\$29.4 million for the nine months period ended 31 December 2017 to approximately HK\$34.8 million for that of 2018. The Group expects the production cost will be further lowered once the said in-house advertising material printing facilities reach its full operation capacity.

In the hospitals and clinics sub-segment, gross profit margin decreased from approximately 75.7% for the nine months period ended 31 December 2017 to approximately 27.4% for that of 2018 due to the completion of the said hospitals sub-segment.

In the health and beauty retail stores sub-segment, gross loss margin increased by 17.7 percentage points for the nine months period ended 31 December 2018 as compared with that of 2017 due to the completion of the said sub-segment.

The Group recorded a gross profit margin of approximately 26.5%, approximately 17.5% and approximately 35.3% for the nine months period ended 31 December 2018 for new segments of Digital Media Business, Digital Event Management Business and Logistic Advertising Business respectively.

Selling Expenses

Selling expenses increased by 32.7% from approximately HK\$4.9 million for the nine months period ended 31 December 2017 to approximately HK\$6.5 million for that of 2018. It was mainly due to the increase of commission paid for the development of the new media platforms and the increase of the rebate paid to the advertising agency clients subject to the annual volume rebate scheme executed between the Group and the advertising agency clients.

Administrative Expenses

Administrative expenses increased from approximately HK\$7.7 million for the nine months period ended 31 December 2017 to approximately HK\$9.0 million for that of 2018. The increase was mainly attributable to (i) increase of directors' remuneration and staff welfare of approximately HK\$0.4 million and approximately HK\$0.2 million respectively; and (ii) increase in depreciation and motor car expenses of approximately HK\$0.4 million.

Loss/Profit Attributable to Owners of the Company for the Period

As a result, we recorded a net loss of approximately HK\$77,000 for the nine months period ended 31 December 2018 as compared to a net profit of approximately HK\$2,869,000 for that of 2017.

Outlook

During the period under review, the Group continues its expansion in Digital Media Business and Digital Event Management Business. Both of them have maintained a steady growth in terms of revenue and profit margin. Apart from business expansion, the Group also focused on cost effectiveness strategy on our media platforms. In 2018, the Group has resolved to develop in-house advertising material printing facilities which the advertising stickers will be printed by the Group's in-house printing machines and trimmed for the size of the respective advertising space. For instance, the Group has commenced the operation of the in-house advertising material printing facilities in October 2018 and our first in-house printed advertising stickers for Transportation Business were installed on our exclusive minibus advertising space in the same month. The Group believes that the in-house advertising material printing facilities shall definitely enhance the flexibility and efficiency of our service, in which our client can take longer time to decide the layout of their advertisement before the commencement of the advertising period. Clients can also adjust the colour of their designs easily and our production unit can deliver test-print on the same day. Such advancement to our service can provide a better experience to our clients and strengthen the Group's overall competitiveness. The Group will further explore to maximize the productivity of our in-house advertising material printing facilities so as to minimize the Group's reliance on outsourced printers.
